## U. F. A. CONVENTION AT CALGARY

On Tuesday morning the annual Convention of the United Farmers of Alberta commenced. The delegates arrived at 10 a.m., being called to order by 1200 delegates in attendance from every part of Alberta, except from the Peace River District. About thirty six delegates were absent on the morning of the convention at the northern country from Friday Jan. 23 to the following Wednesday, when they reached Calgary.

In a few brief remarks Mr. Wood outlined some of the work done by the U.F.A. during the past year and some of the ideas they were endeavoring to promulgate.

Mr. Wood was offered the chair for the Convention, which he declined, giving his reason the press of other matters of the Convention, which was demanding his time, from a number of other candidates Mr. L. G. Wood, of Westlock, was chosen chairman, which part he filled with care and ability.

**Addresses by Premier and Mayor.**  
In the absence of L. G. Wood, Mayor Marshall and Premier Stewart gave addresses of welcome. The burden of Mayor Marshall's address was the community of interest which existed between city and country, and concluded by a welcome of the delegates to the city of Calgary.

While the premier's address resonated largely of telling of the struggles in the Provincial House to achieve the path of rectitude, wisdom, and fairness to all, especially the rural districts, it also savored of an old experienced father counselling a rapidly growing and ambitious son, and while it was extremely difficult to see the reality of the advice to the conduct of the Provincial House, in the rural districts, it was undoubtedly sound, and it followed would undoubtedly give any legislative body advice most judicious.

**Reports of Committees.**  
Following this was the necessary work of the reports of committees, and the appointment of officers, followed by the annual address of the President, H. W. Wood, which undoubtedly left the Convention wide open for business and very much expanded.

It was now agreed that the main of the Convention revolved around two paramount questions, the Actions of the Wheat Board, and the action of the U.F.A. to assist towards political action.

**20th Resolutions to Dispose Of.**  
The convention had some 20th resolutions to consider, and it was significant to note the careful thought and foresight, that all resolutions that assured of special privilege or unfair advantage of one part of the Province over any other, or the endangering of the rights of the farmers of the Province of U.F.A. was rejected.

The fourteen resolutions that came up were rejected, and attempts to say the first to be adopted was the official U.F.A. song "Organize O'rganize," says to the tune of Maryland, Maryland. (The text of the song will be published in next issue.)

**Actions of the Wheat Board.**  
The U.F.A. were very much interested in the wheat board, but Mr. H. Wood called for a full explanation of the Wheat Board by Fred Wood, then for the next hour a half the President went over every detail of his appointment, the construction of the Board, its work, effect on the farmer, on the miller and the speculator, the administration of the European Allied Wheat Board, our relation to the U.S., correcting erroneous statements, until at last the Convention seemed to feel that they were under their feet, and from Mr. Wood's careful, patient explanation of the following:

That the U.S. had placed a complete embargo on Canadian Wheat.

That all wheat bought by Allied European countries was bought through the Wheat Board in Europe. That Europe could not pay cash for its wheat bought, but had first to borrow from the countries it wished to buy wheat from, and then paid for the wheat bought with the money borrowed, and as a result our Canadian financial institutions refused to finance our crops without the Canadian Government backing the proposition. Hence the necessity for the Government Wheat Board.

Also, that no part of the 1919 wheat crop was sold at the extremely low price of 22¢.

**Miller Did Not Benefit.**  
The millers did not benefit one cent by the advance in price of wheat from \$2.25 to \$2.85, as the corresponding privilege of advancing from \$2.25 per barrel, for the reason that the advance in price covered all wheat held by them in elevators, mills, and so on, as well as stocks of flour on hand. This advance was paid by the millers to the Government Board, and placed in the wheat pool by them, which in turn enhanced the value of the participation certificates. After this discussion the following resolution was adopted:

Resolved, that the Convention go on record as favoring the continuation of the Canadian Wheat Board as long as the European Allied Countries continued to buy their wheat collectively.

**Resolutions Considered.**  
Resolutions ranging over a wide area were considered, these affecting road grain, irrigation, damage done livestock by railways, income tax laws, and their enforcement, school laws, school tax and Government assistance, particularly in outlying districts.

**Re-establishment Approved.**  
The re-establishment scheme, as outlined by the president of Calgary (W.V.A.), and asked for by the W.V.A., was unanimously adopted.

**Prohibition Moved.**  
Another motion moving the Convention arrived when a resolution was brought in favoring a continuation of prohibition in the Province, and a more rigid enforcement of the law regulating liquor. The Convention shunned the usual method of voting with the unified band, and the entire house, this delegates, none to their feet and with shouts and songs adopted it unanimously.

**Christian Teaching in Schools.**  
A resolution, that a well-written history of the life of Christ and other Bible characters should form a chapter in our literature course in school was warmly supported and adopted.

**U.F.A. and Political Action.**  
A second crucial point in the Convention seemed to be reached when the policy of the U.F.A. for future political action came up for discussion. Those favoring the policy of talking into the fold of the U.F.A. anyone who could be induced to endorse the new National Policy as outlined by the U.F.A. of Saskatchewan and Manitoba and the theory that it was a good policy, rallied around Mr. Muir as the standard bearer, and those favoring the policy of the U.F.A. for future political action rallied around H. W. Wood, whose position it was that so long as the U.F.A. is composed solely of farmers there is any defect of their purpose as a U.F.A., or any attack on the rights of the farmers by any outside interest, will cement them together for self-protection and become stronger as a result. Whereas if the U.F.A. should open its doors to any and all merchants, mechanics, professional men, railers or bankers, who would endorse the new National Policy in order to get an election, might be good politics but had for the U.F.A. for a U.F.A. as composed, which met by defect or force to hold together for any great length of time would soon lose all interest in the U.F.A. as such, and its great number of who

## Town Council

Councillor Anderson Starts Something Mayor Finds Farming Profitable.

The regular meeting of Strathmore Town Council was held in the Town Hall on Tuesday evening, all the Council being present with the exception of Councillor Givins. In business arising out of the minutes the case of the horse that has been loose around town for the past few weeks, and which the Town tried to lose by turning him loose in the country, was up again. It was stated however, that the Provincial Police had promised to look after him.

In the case of one quarter-section within the town limits, on which some were owing in taxes, it was agreed to obtain possession of the owner's share of the crop, in payment of taxes, by gentlemen of the town.

**The High Cost of Schooling.**  
The requisition by the School Board for \$2500 for the year 1920 having been the Council's business away. Some of the Council members seemed to be quite resigned to it, as they figured that teachers' salaries were not too high, and the rest would have to go up. It was agreed that it would mean an increase on the taxes. The Mayor seemed to think that the city portion of the district could stand a bit extra taxation. Councillor Bowers mentioned that a man with a quarter-section often made less money than the man with a single lot on which he had a business. The Mayor said he had found farming more profitable than business. He made \$2000 on 20 acres this year.

Finally it was agreed to meet with the School Board and see if some reduction could be arrived at in the estimates.

The use of the Town Hall was granted to the Band for their practices.

**Councillor Anderson's Lets.**  
Mr. T. H. Eves asked if the lots which Councillor Anderson had agreed to buy were for sale.

Councillor Anderson said he was still waiting for his bargain. He was ready with the money as soon as the Town produced the title.

Councillor Bell asked if it was not the case that Councillor Anderson had said that if he could not get the lots by the beginning of January the deal was off, but Councillor Anderson denied this vehemently.

He then proceeded to get after the Secretary for alleged delinquency in this matter, which the Secretary denied, and asked for the protection of the Mayor against this sort of attack. The Mayor then said he could not allow this kind of discussion any longer. Members had to address him now. The meeting then adjourned.

Councillor Anderson, it will be remembered, offered some time ago to purchase the two lots on which the Massey-Harris agency is at present situated for \$600, which offer was accepted by the Council but it appeared that the Council could not put the present tenant, Mr. Eves, off before the first of March. Councillor Anderson has an extensive vocabulary which he exercises on the Councilors from time to time. This time, however no one was called a "dumbchuck," as on a previous occasion.

**Don't Forget the Baseball Game.**  
To be held tonight in the Opera House. Get out and give yourself a good time and help the cause of sport.

Mr. T. H. Eves has left for La Porte, Indiana, where he is going to take a tractor course at the Allvance Foundry factory. He expects to be back by February 15th. During his absence Mr. E. H. Seymour will be in charge of the Massey-Harris agency.

Meeting of Strathmore Board of Trade will be held in the Town Hall on Friday evening, at 8 p.m. Subjects to be brought up will be of interest to the community and affect the prosperity and well-being of every business man, and everyone who is in business here should make a point of attending.

## Commemoration Services in Presbyterian Church

In commemoration of the freeing of Strathmore Presbyterian Church from debt special services were held in the church morning and evening. These are the first services that have been held in the church for several years. The executive of the church having felt that in view of the distinctions of the war, and the shortage of ministers from the same cause, that it would be better to reduce the debt than to incur fresh obligations. Credit for the elimination of the debt belongs largely to the Ladies Aid of the church, who have worked assiduously for the past four years for the purpose.

Now that the debt is lifted, it is hardly probable that the church will remain idle, though whether it will be run as a separate denominational effort or as a church of the future is held in the church has not been settled. An effort is being made to wards the establishment of a young people's centre under the direction of the combined church bodies, or even of establishing the church as a Young People's Centre under Y.M.C.A. auspices. This, however, is for the future.

Under the auspices of Strathmore Hospital Board, a concert and dance was held in the Opera House Friday evening. The attendance was not as great as it would have been if the weather had been less severe, but everyone present thoroughly enjoyed themselves, and the merit was kept for the future.

Excellent music was supplied by the Banff Orchestra.

During the evening a large number of boxes were auctioned off, Mr. W. E. Brown officiating capably with the hammer. The net amount realized from the evening's entertainment was \$120.

**Fire at Roland Hill's**  
When the fire first started ringing at 11 p.m. on Thursday evening, with the temperature standing at 25 below zero, those who heard the sound shivers with apprehension, because it would be a bad looking for the town and its inadequate fire appliances if a fire got a start at all.

However, owing to the resourcefulness of Mr. Hill and some others who were in the Hub food room and Bowling Alley at the time the fire which originated at the stove in the bowling alley, from a can of lubricating oil that went on fire, was extinguished in a short time, and though much smoke was caused, the damage was slight. The fire was smothered by old billiard cloths. The fire brigade and citizens generally turned out in very good time, and one of the engines was brought down in the scene of the fire.

Mr. Banff is an eloquent and powerful speaker. His moving service was based on the text, "He search for you," and his evening address dealt with the necessity for the Forward Movement in the welfare of Canada. During the evening service special music was rendered by the choir.

**Successful Hospital Dance**  
Under the auspices of Strathmore Hospital Board, a concert and dance was held in the Opera House Friday evening. The attendance was not as great as it would have been if the weather had been less severe, but everyone present thoroughly enjoyed themselves, and the merit was kept for the future.

Excellent music was supplied by the Banff Orchestra.

## Top of the World Carnival

Strathmore is to have an elaborate winter carnival this year, and will be the first of its kind in the fourteenth century. Situated as it is in the Canadian Pacific Rockies and surrounded by the grandeur of Tunnel Mountain, Rundle Mountain, and Sulphur Mountain, Banff, the national resort, is fast becoming the centre of winter sport in Canada, as Christiansia in Norway. It is a perfect winter playground with its natural mountain slides and ideal skiing. The preparations for the carnival this year are on a larger and broader scale than previous years: the aim being to make Banff attractive in winter as well as in summer. In one aspect the visitor will find something new and different in winter amusement in the hot sulphur springs, and the thrill of swimming out in the open with the thermometer above or even below zero, is not rapid but warm water.

The spirit of the carnival will again have full sway throughout the town, and those who arrive at night will find themselves in a veritable fairyland. Colored lights are to be strung across the streets, down the famous toboggan slide, and on the other in thousands giving a great gala effect.

The list of amusements is a long one. There are hockey and curling matches, toboggan races, snowshoe races, and a variety of other winter sports. The carnival will be open from 10 a.m. to 10 p.m. and will continue for several days. The list of amusements is a long one. ## Dalemead, Alta

This Page Gives the Happenings of Carseland and Dalemead Districts each week.

### Carseland

U.K. Some more winter.

Mr. Paine of the Farmer's Elevator was in the city and attended the U.F.A. Convention this week.

Best bullfitter had a nasty accident last Saturday night. He was leaving the Farmer's Elevator when he slipped and fell down between the main building and gateway, a drop of about 11 feet. He is progressing favorably and is very fortunate not to have broken any bones. Some fellows only drop 1 foot and never have any come back.

Mr. Lawson and Mr. Meland are attending the U.F.A. Convention as delegates from the local U.F.A.

Sam Nelson attended the big Convention this week.

Born to Mr. and Mrs. Dave Robinson on the 21st inst., a son. Congratulations.

Born to Mr. and Mrs. J. H. Dixon of Dalemead, a son, on Jan. 16th. Congratulations.

Mr. Fred W. Moore for some considerable time Bank Manager here has been moved and given a new position at the Bank in Grassy Lake, Alberta. Mr. Moore made many friends while here, was always courteous and a gentleman to meet either business or private life. He carries with him to his new position the hearty good wishes of Carseland and District. Mr. C. W. Cyle, formerly of Strathmore Union Bank, succeeds Mr. Moore as local Bank Manager and we wish for him every success.

A meeting of the ratepayers is being called for Friday afternoon at one o'clock in the school house to hear an address by the Inspector for this District, Mr. Lagette of Banff.

Jack Thornton happened an accident while working at the bridge during the week when a stone fell and hit him across the back. He was laid up for four days but is getting around again now.

Ray Hyslop was in the city during the week for a few days.

Clyde Fair is at home again after being very ill for some considerable time in the Holy Cross Hospital at Calgary. His friends are pleased to know of his recovery.

Have we ever thought about it? That the day in which we are living has one outstanding word in common use. It is the word "Cooperation."

This week the U.F.A. Convention, a united gathering of farmers of this province have been meeting in Calgary to discuss and if possible devise ways and means for improving their conditions of labor, marketing, etc.

Some time ago the leading politicians of the country came to the country with a proposal for a Union Government and the electorate returned them with a landslide majority.

In every way it seems as though the large denominations of religion will before the next five years be united and shield the old denominational headings and all come under one name for their mutual good as well as for Canada.

Men everywhere are crying out for a better Canada and seem to have a far away look in their eye at the time as if it were the east, the Mountain Provinces which needed to come up to this new standard.

Possibly they make a mistake. Let us take the time to heart and wake up to the fact that if Canada is to be better the individual community can only be the better if it is by the effort of everyone to make it so. Let that grand, big word "Cooperation" be the motto for this community and then if Canada doesn't improve it will not be our fault.

PRO BONO PUBLICO.

## Enjoying the Winter in Old Quebec

(1) Chateau Frontenac, Quebec, (2) Toboggan Slide, Citadel Hill, Quebec.

Mayor J. A. Gauthier of Quebec has announced that the city will be open to the public on Monday, January 2nd, with a grand parade of the Snowmobiles and skis. The season will last a month and an all-terrain program of week-end races and sports has been arranged, ending with a grand carnival from February 1st to 15th.

Since Winter Sports have become as popular as those of Summer, there is no need for anyone to dread the dreariness of December, January and February. To skate rhythmically, to open an outdoor rink to transport one's snowshoes over fields which are impassable for the ordinary pedestrian; to jump from an immense height and not to land up right and sprain, on snow skis, to toboggan at the rate of an express train and most fascinating of all, perhaps, to slide on the St. Lawrence, which are still a novelty on this side of the Atlantic—all this and more does Winter offer to its devotees.

chasing and sliding require some practice before one is an adept, but sliding and snowshoeing are perfectly simple; all one needs is the will to do, the soul to dare. Where winters by nature covers the waters and spreads a blanket of snow over the land, sports are of their best. In Canada, "The Lady of the Snows," every type of winter pastime, mountain, and to Quebec, Canada's oldest city, the outdoor life takes on a new character, situated on the St. Lawrence River, easily accessible by train, Quebec offers to her visitors an unforgotten welcome. At the Chateau Frontenac, the huge hotel which the C.P.R. has built on Jefferson Terrace, the winter guest will find that his indoor comfort and outdoor sport have both been considered. In the rink, one is in the courtyard for the skaters, the other in the summer garden for the tobogganers, and the best of the tobogganers, and perhaps, the greatest attraction, are the toboggan slides—these are built at the foot of the Independence Hotel, where those who love an outdoor life. The hills which surround the city make it ideal for skating and the broad countrywide is as easy to traverse on

### Chancellor Locals

The School Trustees for Sunny Ridge who have been busy of late collecting a fund with which to purchase an organ, have now been successful in their endeavor, and the organ arrived on Monday last. This will facilitate both religious and social functions and we hope to see more local talent developed during the dance intervals.

The C.P.R. train alterations which were scheduled to take effect on the 1st inst. will be effective from Monday, January 15th.

Again the inclemency of the weather has delayed building operations in the completion of the Hall. There is little to be done now to put the hall in serviceable condition. Through the kindness of Mr. O. P. Poiry, the stonemasons have now been completed, all the work being voluntary.

Another dance in Sunny Ridge School house tonight. Everybody welcome.

Miss K. Hall arrived back in Carseland on Monday night train.

C. O. Gibson of the National Elevator Co. is now building on the first floor of his office, in sawdust alley.

Approximately two months and Chancellor will be a owner of property. Farmers of the surrounding district who have journeyed to their native land for the winter months will again return for the seeding of their crops. Land now exchanging hands will be occupied by its new owners and hard labor for the seeding of the winter months will be found everywhere. Obtainers and their buyers will be working overtime delivering grain for seed, stock, tractors and other farm machinery will be unloaded from each train.

### THE FARMERS VIEWS ON POLITICS

The address given by Mr. Guy Johnson to Strathmore U.P.A. last Saturday evening shed considerable light on the programme which is being advanced by the Federal members by the organized farmers of the Dominion.

As presented by Mr. Guy Johnson, it is a sane policy, not revolutionary, but evolutionary. The farmers are not out to destroy, but rather to build up and improve on the present system.

There is no doubt that the farmers are the backbone of Canada, and for that matter of the country, and produce the most of its wealth. It is surprising that ere this they have not secured a stronger hold on the Government of the country, which up till this time has been directed largely by manufacturers and lawyers, who apparently are not in touch with the hopes and aspirations of the people of Canada as a whole.

It will be noted that with the prospects of an early share in the Government of the nation, the farmers' leaders are mostly practical and conservative men. The advocates of the doctrine of communism, and some of the other fan, have sunk in the backgrounds.

It is hard to prophesy what the farmers can do until they are given a chance. Changes in the government of the country are wanted if we are to have reconstruction of the right sort. The old parties have failed to present real reconstructive measures, and we believe that the farmers' representatives will have the opportunity of carrying out the people's wishes as the majority in the next Federal Government.

D. C. Coleman, Western Vice-President of the Canadian Pacific, on his return from Montreal, where he had discussed the year's appointments for expenditures with the other executive officers of the company, said:

"This year's programme of betterments, improvements and extensions as approved at headquarters is the most considerable undertaking since 1912. It gives a normal grain yield, we look for the heaviest volume of freight traffic we have ever been called on to move, and we propose to make such provision for it that the public will continue to receive the best quality of service. I think the Western people will reward it as an inspiring expression of robust confidence in the immediate future of the Western Province."

### UNRESERVED AUCTION SALE

Instructed by Mr. Charles Slagle, who is leaving for the States, we will sell the following at his farm,

1/2 mile e. Ardenode, 2 miles w. Nightingale

Thursday, January 29th, 1920

at 11 o'clock

### TO THE MERCHANTS OF CANADA

The Weekly home paper is your community paper. The Weekly papers are the Windows of the Country store.

The Weekly papers have drawn trade from the mail order concerns; and will continue to draw trade from these concerns whenever they are used. Therefore let not the merchant who is suffering from mail order competition despair, let him try out the Weekly paper, let him attract the local trade and hold it by using the Weekly paper let him help his home town paper, the editor of which staunchly refuses advertising from mail order houses. Let him bring his people to his store by the persuasion of his appeal through the Weekly paper and his despair will be turned into Joy.

Hundreds have done it, are doing it today. Why not you.

Let the people know what you have for sale and at what price, the people are at least prepared to give you a fair trial.

From the Retail Merchants Association.

## Where Words End, Music Begins

Words, in themselves, are but poor interpreters of emotion. Where words end, music begins. Where words only suggest, music satisfies; it utters with a clear, vibrant voice what otherwise would remain unuttered.

Music will allow you to express your innermost thoughts and ideals.

But how, you ask, can you create this music since you are no musician nor the master of any instrument?

### The NEW EDISON

"The Phonograph with a Soul"

has stored up in its magic discs the music of the world's greatest musicians—the soul-children of the music masters. And this music The New Edison will Re-Charge for you, in your own home, exactly as you would hear it in the grand opera houses and the famous concert halls.

You should read the beautiful book "Edison and Music" and the booklet "What the Critic Says" containing evidence that proves Edison superiority. Ask for copies when you come to hear the New Edison.

## Nightingale News

Jim McLean is building two nice rooms on the school for the accommodation of the teacher.

Mr. Jenkins (well drilling fame) is visiting Mr. and Mrs. Ray Prince.

Archie McLean sold a bunch of nice beef steers this week.

A meeting of the U.F.A. was held in the school last Thursday and quite a lot of business was put through. Invitations were sent to Mr. Fred Davis also to a representative of the U.G.G. to come down and give us a talk at our next meeting.

Mr. P. G. Lyons and Mr. Noel were elected delegates to attend the U.F.A. Convention.

Now Mr. Farmer why don't you all attend the U.F.A. meetings, don't sit at home and let farm chair critics but come and help (push) with the crowd as it is all to your advantage.

Miss Mary McLean has returned home after spending several days in Calgary.

Mr. Hillen and Mr. J. Davis have been visiting Medicine Hat, Melville, and Lethbridge and have had several car loads of green feed during the visit.

The heavy fall of snow has laid the cars up for a rest and elaborate of all shapes and sizes are taking their places.

The shortage of paper must have hit our Editor as we notice his paper was much smaller this week.

I would like to see Sir Harry Lauder around here wearing his kilt at 10 below zero.

Mr. Woodley has been hurt at his putting in the Golden Bunch to the elevator.

## Cheadle

Mrs. Mabel Craig was visiting for six days with her mother at Stettin. Capt. Craig was called to Calgary on Friday on account of the serious illness of his mother.

James McLean was a visitor in Calgary for the festive evening.

The delegates in the U.F.A. convention have returned and will give their report at the next meeting. Mr. Hillen seems to be on the horns so in this election at least it looks that way. The amount of business done here during the convention and the U.F.A. is impressive in fact.

## U.F.A. Convention

Concluded from Page 1  
classes in their ranks would become a source of weakness to the whole organization, which would collapse for want of the cement of common interest.

### President Wood's Policy

Mr. Wood further maintained that the correct political policy of the U.F.A. was to keep in close touch with all other class organizations, such as the labor unions of every kind, the G.W.P.A., etc., and on all questions of common interest to cooperate as separate organizations. Then after a political campaign, either successful or otherwise, each organization could retire in good order and unharmed.

### Wood Re-Elected by Large Majority

The election of President of the U.F.A. for the forthcoming year then followed and was controlled along these lines, the nominees being Messrs Wood and Muir. The former was elected by a vote of 102 to 20.

Mr. Wood was helped out in his position whenever a representative from some class organization expressed greetings and said that there were points on which they could stand together with the U.F.A. Nor one suggested annihilation of his organization with the U.F.A.

### U.F.W.A. Convention

The U.F.W.A. held its convention during the same time and brought in some resolutions that showed an understanding of the problems of rural life from their own angle, and all their activities were marked by careful thought, good judgment, and some enthusiasm.

Mrs. Sears, of Nanton, was elected president for 1920.

We are indebted to Mr. P. T. McElroy, secretary of Strathmore U.F.A., and one of the delegates to the Convention, for the foregoing facts and concise report of the proceedings.—Ed. Standard.

## BULLETS FOR PROFIT

(Experimental Farm Note.)

It is largely on the farmers' backs of poultry that Canada must depend for her products. Not only so, but the best and most promising source of food for many farmers are the chickens. The profitability of this branch of raising is a matter of increasing interest. Some of the factors in their production, the relative value of production, every flock requires some kind of help and in a little more detail and a little more attention will give a profitable supply of winter eggs.

Another method of increasing the supply of winter eggs is that of replacing hens with early hatched pullets. In an experiment of six weeks' experimental raising, it was found that only 5 out of 25 were paired hens laid 400 eggs in a year, and only 10 out of 25 were paired hens laid 100 eggs in a year. It is a case of 10 pullets hatched from eggs from these hens three laid 200 eggs in the same period and 10 laid over 150. In the month of January the hatched pullets laid an average of 15 eggs per bird while the hens laid an average of 24 eggs.

Some of the pullets in the experiment were April hatched and some were hatched in May. At the end of May 1919 the April hatched pullets had on an average laid 75 more eggs per bird per month than the May hatched. This shows the importance of hatching the chicks early.

In addition to being early hatched, pullets to lay well in the winter must be well-fed, well and comfortably housed. Breeding for egg production is carried on by a number of poultrymen who are raising the utility breeds. For the average farm flock, the cheapest method to secure a good laying strain is to secure and grow such birds from flocks that have been improved along this line.

Much of their feed can be picked up by the feed during the winter, but in winter not only should they have access to some feed in addition to the scratch feed but such foods as mealworms, crickets, shell, charcoal and grit are essential. Field roots or some cabbage help to keep the birds more healthy.

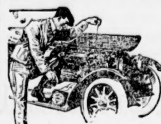

Housing poultry is one of the most difficult problems on the open prairie. The most satisfactory buildings erected up to the present are the corrals on front houses well constructed. Double boards and paper are necessary for the walls, and in extreme cold times storm doors may be necessary curtains to drop down in front of the house. A false ceiling of loosely laid boards covered with straw has been built about three feet above the house. The straw appears to take up the dampness and too free circulation of air is checked. The birds instead of being stiff with the cold in the morning are in good shape to start the day's operations.

M. J. TINLINC

## Womens Institute Re- lief Work

Still goes on. Since last May have after the individual institute found their way to Southern Prairie and other parts where was need for assistance, with clothing. Then the needs for more centralized relief work was recognized. The Alberta Womens Institute established a distributing centre in the Riley Bldg 223-225 eighth Ave. West Calgary, where supplies from all parts of the Province are received, where applications for relief come, and where the clothing is sorted, repacked, and sent to the homes in the drought area. Since Dec. 6th 774 persons have been supplied with complete outfits of clothing. Over \$1,100 in cash has been donated. Also 7 bundles, 7 sacks, 27 boxes, 2 barrels, and 128 articles of clothing. By having a supply of clothing on hand there is no need to hold a shipment over for lack of certain supplies. They are purchased from the wholesale and shipment goes merely on prepared, so it reaches the homes with out money and without delay.

## Long Beach

It is understood that the municipal polling place for district No. 1 will be Long Beach school house and the elections will be on February 27th. The district comprises township 25 range 21 and the south half of 26-21. The voters list is now posted at the school. Go and see if your name is on it. If not get it put on before election day.

## G.W.V.A. Jottings

Comrades of the War,  
Comrades in Strathmore.

Officers and Executive of G.W.V.A. have big things to accomplish this year and to accomplish them we must have the support of every comrade.

The annual of the fallow and the Club Rooms for the Returned must be built this year.

To accomplish this we must work and sweat.

We would consider it a favor if you would let us know of any veterans' dependents who need help. We are organized to help.

Particulars are now out of a Memorial Cross given to a widow or mother who lost a soldier or sailor son in the war.

Persons interested can obtain particulars from the Secretary, H. H. Forward.

Employers of Labor are asked to keep in touch with the Local G.W.V.A. and we will do our best to supply you with help during the year.

Keep a lookout for our next big concert.

We give every Returned Man an invitation to attend our meetings and join us.

Big things were accomplished in the year 1919.

Business of vital importance is now before us, shall we be divided and null? When united we can win.

In our fight for re-establishment let us not forget the Blind, the Orphan, Widows, Orphan and Dependents. These must receive the first consideration.

Remember you have a vote, attend the meeting and use it.

Soldiers dependents who paid their own taxes prior to November 11th can now have the amount of the taxes refunded, and if they are any in this district they should make application now.

Remember you have a vote, attend the meeting and use it.

Soldiers dependents who paid their own taxes prior to November 11th can now have the amount of the taxes refunded, and if they are any in this district they should make application now.

the subject matter. Reciprocity, still on the U.S.A. statute books came up for consideration. Finally the vote was taken. "All in favor raise the right hand," a sea of hands held on high. "Down" Contrary show to some mind. Not one hand rose amongst those men who are not afraid to stand up single in defence of argument, and who are not daunted by adverse criticism, but tonight discussed on its merits as a public question affecting 35 per cent. of Canadians, other than men of big money, the farmers were a unit. And as I saw "Grit and Tory" reconciled I realized as never before, the truth of the birth of a new citizenship so ably outlined in the Christmas edition of your paper. That our boys have not died in vain is a certainty. We are going over the top.

Yours in this great struggle,  
D. F. BOISSEVAIN.

## NO LOANS REQUIRED !

How abundant your insurance? If you want Renewals look up your Policies and see. Patronize your Home Insurance Man, then you won't have any worry about Renewals, your agent will take care of them for you.

STRATHMORE

MUNICIPAL DISTRICT OF BOW

VALLEY NO. 219.

Notice Re. Seed Grain Season of 1920. Residents of the Municipal District of Bow Valley No. 219, Who wish to secure seed grain for the season 1920, through the Municipal District, are requested to list their applications with the Sec. Treas. of the Municipal Office, Strathmore, not later than Feb. 10th, next.

The Council wish to secure information as to the requirements of 1920 in order that they may be able to make the necessary financial arrangements, and also secure as much seed required, locally as possible.

If the parties desiring seed will do so the Council requests it will mean the avoidance of possible serious delay in securing seed grain later in the season.

Do not delay - do it now. By order of the Council.

W. G. WAT, Sec. Treas.

4-24

## LAND BARGAINS

We have now the following lands to sell on crop payment. 440 acres, 2 miles south of town known as the Roy Egan farm, well improved. This is a real farm and a good money maker.

Just apply unless you have some cash. 618 acres two miles west of town known as the Star Section, well fenced and improved, 29, 229 acres in 26-25 adjoining the A. Pool farm, improved, 300 acres of this can be farmed, with a fair cash payment. This land can be bought at \$22.00 per acre is only three miles from station.

15 acres with house, barn and other outbuildings, fenced and broken, only a mile from Strathmore, \$1000.

The substantial men of any country are the men who hold the titles to the Real Estate of that Country. The opportunities to get in with small amounts of capital and make big money are everywhere, and are everywhere.

SEE ME! HOES, THE LAND MAN.

## BUY AN IRRIGATED FARM

FROM  
THE CANADIAN PACIFIC RAILWAY

**BECAUSE—**  
Irrigation makes the farmer independent of rainfall and insures good crops, not occasionally, but every year.  
Irrigation makes possible the successful culture of alfalfa, the food of fanners, who insure good returns in dairying and mixed farming.  
Irrigation means intensive farming and close settlement with all the advantages of a densely populated agricultural community.  
Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment, the years that it has been true having absolutely demonstrated its success wherever intelligently applied.

This is the most liberal offer of irrigated farm land on record. For full particulars, apply to
